The actual increase in outstanding indebtedness is therefore \$5,917.72.

The farm produce for the year includes:

300 bushels potatoes

400 bushels oats

600 bushels corn

1100 pounds pork

With fruit and vegetables.

Your Auditors desire to say that the usual excellent standard of care of the poor by the overseer is now being maintained. We think that in the near future the town should, from the standpoint both of economy and comfort, replace the present hot air furnace with a modern steam or hot water system. The living room in the farm house needs a new ceiling and we recommend that the plaster ceiling be replaced by a steel ceiling.

## Cemetery Commission Report

Your Commissioners report the condition of cemeteries to date; and trust funds paid in and invested as follows: Fund in town treasury, \$4,975; in the hands of trustees of public money, \$3,750; in the hands of your commissioners, \$2,500; total trust fund, \$11,225; the income of which will be \$449 for annual use. We now have 95 lots endowed, 125 lots having special care, and by the will of John I. Van Ornam, over 100 lots to be cared for as specified in that instrument. This number will increase during the next ten years; will not some patriotic citizen add to this fund, so that every deceased soldier may be honored by having his lot suitably cared for? It may not be known that soldiers have lain in our cemeteries in uncared for lots for over a hundred years. Our present plan is to place a white vitrified tile marker with G. A. R. at its top on every lot.

Thirty lots have been endowed this year, and your commissioners appreciate the interest you are taking in this important, but usually too long deferred attention to a common duty.

Our expenses for repairs and painting have been about \$75. The hearse house has been lowered and the wall on Summer Hill replaced. The fence enclosing Summer Hill cemetery is in bad condition, and another year your commissioners will ask for an appropriation sufficient for a good three rail iron fence with suitable and appropriate gateways, and will offer estimates for the same. Your commissioners know of no other extra expenses for some years to come.

Very respectfully yours,

RODNEY G. BRITTON, Secretary.

### Town Library Report, 1912-1913

The following is the report of the work of the town library for the year ending January 31st, 1913:

7,920 books were in the library February 1st, 1912. 681 books were acquired during the year, of which 361 were bought and 320 were gifts. 101 books were removed from circulation, leaving a total of 8,400 books now listed in the library.

50,135 books and magazines were loaned in the 306 days on which the library was open, an average of 164 per day, and a gain of 1,665 over last year's circulation. Of the 50,135 books, 12,710 were juvenile. 742 books were sent to West Springfield and 3,006 to North Springfield in fortnightly deliveries.

Two magazine clubs for people outside the village were maintained during the year with periodi-

cals from the reading room tables. 315 cards were issued to new borrowers.

By will of the late Charles Chase, the library received \$2,000.

By will of the late Mrs. Jane E. W. Dana, the library received the Dana Private Library and \$2,000 in trust, the interest of which is to be used for buying books.

In April, Mrs. Cora Hayward resigned her position as assistant and in June Miss Isabel A. Currie, who had so efficiently assisted in the work from time to time for over two years, was appointed to fill the vacancy.

The members of the library board and librarian extend thanks to all those who have so kindly helped the library by gift or loan of books, magazines, money, personal services or other tokens of interest and appreciation.

ELIZABETH M. McCARTHY,

Librarian.

A large part of the uncollected poll taxes are taxes assessed against Russians and Polanders, who left the country before the taxes became due. The town loses a considerable sum each year because of this fact.

## Notice

Owing to a recent act of the General Assembly, the town report for the year 1913 must be issued not later than 15 days before town meeting. To comply with this law it will be necessary for the books of the various town officers to close on Dec. 31, 1913. The report next year will therefore be for eleven months.

# Health Officer's Report

---

In this my annual report for 1912, I think we have reason to feel thankful as the statistics show improvement in matter of controlling contagious diseases, and the number of deaths.

The deaths for 1912 numbered 70; in 1911, 84. One death at 101 years; four over 90; eight over 80; nine over 70, and eleven over 60. There were four deaths from tuberculosis against six in 1911; eleven cases of disease of heart and arteries, and eleven deaths from pneumonia against sixteen in 1911.

I have quarantined 175 cases of whooping cough, but I think there were over 200 in all, as some of the cases were very light and not reported; one death resulted; 43 cases of mumps, and only one case of diphtheria, where we had eight in 1911.

We shall have these contagious diseases as long as the public believes it is necessary for any child to have them all.

I have nothing new to report about the school-houses. There is room for improvement still along the lines suggested in previous reports, and I can only emphasize what I have said in regard to a new two room building in the south part of the town.

Respectfully submitted,

C. W. LOCKE, Health Officer.
